URBAN PARKS | Curated Engineered Collection

This collection is comprised of 5 specially designed engineered planks in natural patterns and tones, with rich textures and flavors. Inspiration for this palate is drawn from American city parks. Colors range from sandy oat to light drift-ash and milk chocolate-chestnut, indulging both classic sensibilities and modern twists.

The Urban Parks collection has a cross-grain tongue and groove plywood base with a 3.0 mm saw cut wear layer, lightly fumed and bi-directionally brushed, finished with a matte, high-resistance aluminum oxide UV lacquer. This enticing wood can be nailed or glued.

If you're interested in exploring your imagination beyond our curated collection, please consider our custom curation service.
